ONE-TIME COMPLIANCE REPORT FOR DENTAL DISCHARGERS
(40 CFR 441.50)
Effluent Limitations Guidelines and Standards for the Dental Office Category**

Instructions:

Regulations for mercury discharges from dental offices (dischargers) have been established in the U.S. Code of Federal Regulations (CFR). These Dental Effluent Guidelines are located at 40 CFR Part 441. Your facility is required to complete the Dental Amalgam One-Time Compliance Report because it discharges its wastewater to the Publicly Owned Treatment Works (POTW) of the Wyoming Valley Sanitary Authority (WVSA). The WVSA is required to identify all dental offices in its service area that are subject to the rule, notify these offices of the applicable requirements and ensure that the offices comply with the rule.

The completed form must be returned to the address below no later than October 31, 2019:
